

# ioping

Monitor I/O latency in real time.

- Show disk I/O latency using the default values and the current directory:

```
ioping .
```

- Measure latency on /tmp using 10 requests of 1 megabyte each:

```
ioping -c 10 -s 1M /tmp
```

- Measure disk seek rate on /dev/sda:

```
ioping -R /dev/sda
```

- Measure disk sequential speed on /dev/sda:

```
ioping -RL /dev/sda
```
