

dpkg-query

A tool that shows information about installed packages.

- List all installed packages:

```
dpkg-query -l
```

- List installed packages matching a pattern:

```
dpkg-query -l '{{pattern}}'
```

- List all files installed by a package:

```
dpkg-query -L {{package_name}}
```

- Show information about a package:

```
dpkg-query -s {{package_name}}
```
