

# mdadm

RAID management utility.

- Create array:

```
mdadm --create {{/path/to/raid_device_file}} --level {{raid_level}} --raid-  
devices {{number_of_disks}} {{/path/to/disk_device_file}}
```

- Stop array:

```
mdadm -S {{/path/to/raid_device_file}}
```

- Mark disk as failed:

```
mdadm {{/path/to/raid_device_file}} -f {{/path/to/disk_device_file}}
```

- Remove disk:

```
mdadm {{/path/to/raid_device_file}} -r {{/path/to/disk_device_file}}
```

- Add disk to array:

```
mdadm {{/path/to/raid_device_file}} -a {{/path/to/disk_device_file}}
```

- Show RAID info:

```
mdadm -D {{/path/to/raid_device_file}}
```
