

git remote

Manage set of tracked repositories ("remotes").

- Show a list of existing remotes, their names and URL:

```
git remote -v
```

- Add a remote:

```
git remote add {{remote_name}} {{remote_url}}
```

- Change the URL of a remote:

```
git remote set-url {{remote_name}} {{new_url}}
```

- Remove a remote:

```
git remote remove {{remote_name}}
```

- Rename a remote:

```
git remote rename {{old_name}} {{new_name}}
```
