

mutt

Command-line email client.

- Open the specified mailbox:

```
mutt -f {{mailbox}}
```

- Send an email and specify a subject and a cc recipient:

```
mutt -s {{subject}} -c {{cc@example.com}} {{recipient@example.com}}
```

- Send an email with files attached:

```
mutt -a {{file1}} {{file2}} -- {{recipient@example.com}}
```

- Specify a file to include as the message body:

```
mutt -i {{file}} {{recipient@example.com}}
```

- Specify a draft file containing the header and the body of the message, in RFC 5322 format:

```
mutt -H {{file}} {{recipient@example.com}}
```
