

http-prompt

An interactive command-line HTTP client featuring autocomplete and syntax highlighting.

- Launch a session targeting the default url of `http://localhost:8000` or the previous session:

`http-prompt`

- Launch a session with a given url:

`http-prompt {{http://example.com}}`

- Launch a session with some initial options:

`http-prompt {{localhost:8000/api}} --auth {{username:password}}`
