

echo

Print given arguments.

- Print a text message. Note: quotes are optional:

```
echo {"Hello World"}
```

- Print a message with environment variables:

```
echo {"My path is $PATH"}
```

- Print a message without the trailing newline:

```
echo -n {"Hello World"}
```

- Enable interpretation of backslash escapes (special characters):

```
echo -e {"Column 1\tColumn 2"}
```
