

lp

Print files.

- Print the output of a command to the default printer (see `lpstat` command):

```
echo "test" | lp
```

- Print a file to the default printer:

```
lp {{path/to/filename}}
```

- Print a file to a named printer (see `lpstat` command):

```
lp -d {{printer_name}} {{path/to/filename}}
```

- Print N copies of file to default printer (replace N with desired number of copies):

```
lp -n {{N}} {{path/to/filename}}
```

- Print only certain pages to the default printer (print pages 1, 3–5, and 16):

```
lp -P 1,3-5,16 {{path/to/filename}}
```
