

# wodim

Command (aliased as `cdrecord` on some systems) for recording data to CDs or DVDs.

Some invocations of `wodim` can cause destructive actions, such as erasing all the data on a disc.

- Display optical drives available to `wodim`:

```
wodim --devices
```

- Record ("burn") an audio-only disc:

```
wodim dev=/dev/{{optical_drive}} -audio {{track*.cdaudio}}
```

- Burn a file to a disc, ejecting the disc once done (some recorders require this):

```
wodim -eject dev=/dev/{{optical_drive}} -data {{file.iso}}
```

- Burn a file to the disc in an optical drive, potentially writing to multiple discs in succession:

```
wodim -tao dev=/dev/{{optical_drive}} -data {{file.iso}}
```
