

ignite

A CLI for React Native boilerplates, plugins, generators, and more.

- Create a new React Native project:

```
ignite new {{project_name}}
```

- Generate file from a plugin:

```
ignite generate {{plugin_name}} {{file_name}}
```

- Add an Ignite plugin to the project:

```
ignite add {{plugin_name}}
```

- Remove an Ignite plugin from the project:

```
ignite remove {{plugin_name}}
```
