

dpkg

Debian package manager.

- Install a package:

```
dpkg -i {{/path/to/file}}
```

- Remove a package:

```
dpkg -r {{package_name}}
```

- List installed packages:

```
dpkg -l {{pattern}}
```

- List package contents:

```
dpkg -L {{package_name}}
```

- Find out which package owns a file:

```
dpkg -S {{file_name}}
```
