

rbash

Restricted Bash shell.

Similar to the bash shell with some restrictions like changing directories with `cd`, setting/unsetting of `PATH`, `ENV` variables and others.

- Start rbash:

`rbash`

- Execute a command:

`rbash -c "{{command}}"`

- Run commands from a file:

`rbash {{file.sh}}`

- Print the version information of rbash:

`rbash --version`
