

7z

A file archiver with high compression ratio.

- Archive a file or folder:

```
7z a {{archived.7z}} {{path/to/file}}
```

- Extract an existing 7z file with original directory structure:

```
7z x {{archived}}
```

- Extract an archive with user-defined output path:

```
7z x {{archived}} -o{{path/to/output}}
```

- Archive using a specific archive type:

```
7z a -t {{zip|gzip|bzip2|tar|...}} {{archived}} {{path/to/file}}
```

- List available archive types:

```
7z i
```

- List the contents of an archive file:

```
7z l {{archived}}
```
