

odps table

Create and modify tables in ODPS (Open Data Processing Service).

- Create a table with partition and lifecycle:

```
create table {{table_name}} ({{col}} {{type}}) partitioned by ({{col}} {{type}})
lifecycle {{days}};
```

- Create a table based on the definition of another table:

```
create table {{table_name}} like {{another_table}};
```

- Add partition to a table:

```
alter table {{table_name}} add partition ({{partition_spec}});
```

- Delete partition from a table:

```
alter table {{table_name}} drop partition ({{partition_spec}});
```

- Delete table:

```
drop table {{table_name}};
```
