

odps resource

Manage resources in ODPS (Open Data Processing Service).

- Show resources in the current project:

```
list resources;
```

- Add file resource:

```
add file {{file_name}} as {{alias}};
```

- Add archive resource:

```
add archive {{archive.tar.gz}} as {{alias}};
```

- Add .jar resource:

```
add jar {{package.jar}};
```

- Add .py resource:

```
add py {{script.py}};
```

- Delete resource:

```
drop resource {{resource_name}};
```
