

figlet

Generate ASCII banners from user input.

- Generate by directly inputting text:

```
figlet {{input_text}}
```

- Use a custom font file:

```
figlet {{input_text}} -f {{font_file_name}}
```

- Pipe command output through figlet:

```
{{command}} | figlet
```

- Show available figlet fonts:

```
showfigfonts {{optional_string_to_display}}
```
