

# 7zr

A file archiver with high compression ratio.  
A standalone version of 7z that only supports .7z files.

- Archive a file or folder:

```
7zr a {{archived.7z}} {{path/to/file}}
```

- Extract an existing 7z file with original directory structure:

```
7zr x {{archived.7z}}
```

- List the contents of an archive file:

```
7zr l {{archived.7z}}
```
