

# handbrakecli

Command-line interface to the HandBrake video conversion tool.

- Convert a video file to MKV (AAC 160kbit audio and x264 CRF20 video):

```
handbrakecli -i {{input.avi}} -o {{output.mkv}} -e x264 -q 20 -B 160
```

- Resize a video file to 320x240:

```
handbrakecli -i {{input.mp4}} -o {{output.mp4}} -w 320 -l 240
```

- List available presets:

```
handbrakecli --preset-list
```

- Convert an AVI video to MP4 using the Android preset:

```
handbrakecli --preset="Android" -i {{input.ext}} -o {{output.mp4}}
```
