

pkginfo

Query the package database on a CRUX system.

- List installed packages and their versions:

```
pkginfo -i
```

- List files owned by a package:

```
pkginfo -l {{package_name}}
```

- List the owner(s) of files matching a pattern:

```
pkginfo -o {{pattern}}
```

- Print the footprint of a file:

```
pkginfo -f {{file}}
```
