

fd

A simple, fast and user-friendly alternative to find.

- Find files under current directory that match a pattern:

```
fd {{pattern}}
```

- Find files that begin with foo:

```
fd {'^foo'}}
```

- Find files with a specific extension:

```
fd --extension {{.ext}} {{pattern}}
```

- Find files under a specific directory:

```
fd {{pattern}} {{path/to/dir}}
```

- Include ignored and hidden files in search:

```
fd --hidden --no-ignore {{pattern}}
```
