touch

Change a file access and modification times (atime, mtime).

- Create a new empty file(s) or change the times for existing file(s) to current time:

```
touch {{filename}}
```

- Set the times on a file to a specific date and time:

```
touch -t {{YYYYMMDDHHMM.SS}} {{filename}}
```

- Use the times from a file to set the times on a second file:

```
touch -r {{filename}} {{filename2}}
```
