hg remove

Remove specified files from the staging area.

- Remove files or directories from the staging area:

hg remove {{path/to/file}}

- Remove all staged files matching a specified pattern:

hg remove --include {{pattern}}

- Remove all staged files, excluding those that match a specified pattern:

hg remove --exclude {{pattern}}

- Recursively remove sub-repositories:

hg remove --subrepos

- Remove files from the repository that have been physically removed:

hg remove --after
