dokku

Docker powered mini-Heroku (PaaS).
Easily deploy multiple apps to your server in different languages using a single
git-push command.

- List runinng apps:

dokku apps

- Create an app:

dokku apps:create {{app_name}}

- Remove an app:

dokku apps:destroy {{app_name}}

- Install plugin:

dokku plugin:install {{full_repo_url}}

- Link database to an app:

dokku {{db}}:link {{db_name}} {{app_name}}
