speedtest-cli

Command line interface for testing internet bandwidth using speedtest.net.

- Run a speed test:

```
speedtest-cli
```

- Run a speed test and generate a sharable result picture:

```
speedtest-cli --share
```

- Print a list of all speedtest.net servers, sorted by distance, to file:

```
speedtest-cli --list > speedtest_servers.txt
```

- Run a speed test to the given speedtest.net server id:

```
speedtest-cli --server {{server_id}}
```
