cowsay

Generate an ASCII character (by default a cow) saying or thinking something.

- Print an ASCII cow saying "Hello world!":

```
cowsay "Hello world!"
```

- List all available characters:

```
cowsay -l
```

- Print an ASCII dragon saying "Hello!":

```
echo "Hello!" | cowsay -f dragon
```

- Print a stoned thinking ASCII cow:

```
cowthink -s "I'm just a cow, not a great thinker ..."
```
