last

View the last logged in users.

- View last logins, their duration and other information as read from /var/log/wtmp:

```
last
```

- Specify how many of the last logins to show:

```
last -n {{login_count}}
```

- Print the full date and time for entries and then display the hostname column last to prevent truncation:

```
last -F -a
```

- View all logins by a specific user and show the ip address instead of the hostname:

```
last {{user_name}} -i
```

- View all recorded reboots (i.e., the last logins of the pseudo user "reboot"):

```
last reboot
```

- View all recorded shutdowns (i.e., the last logins of the pseudo user "shutdown"):

```
last shutdown
```
